

CIGNA WELCOMES OSTROW SCHOOL OF DENTISTRY OF USC FACULTY PRACTICE

Cigna is pleased to announce the **Ostrow School of Dentistry of USC Faculty Practice** is now part of the Cigna Dental PPO (DPPO) Core network!

Cigna customers will have the opportunity to receive quality dental care available through the **Ostrow School of Dentistry of USC Faculty Practice**. The Cigna Dental PPO plan allows members to visit any licensed dentist, in or out-of-network. Coverage includes most preventive procedures at low or no cost, and referral-free access to see specialists.¹ With the Cigna DPPO plan, customers may save more when they visit a dentist in the Cigna network because these dentists have agreed to offer discounts to Cigna customers. Members can also receive discounts for out-of-network services if they visit a dentist who participates in our Dental Network Savings Program, which provides discounts for out-of-network services.²

Below are some valuable tools members have access to as part of the Cigna dental plan:

Once registered, customers can get personalized dental plan information, locate a dentist or specialist, plan dental care with the Treatment Cost Estimator, check claim status and much more!

Cigna Dental Oral Health Integration Program® (OHIP)

As clinical research has indicated³ associations between oral health and certain medical conditions, OHIP provides additional dental coverage for those with the following eligible conditions: maternity, diabetes, stroke and cardiovascular disease, head and neck cancer radiation, organ transplants and chronic kidney disease.

If customers have any of the medical conditions mentioned above, they may qualify for 100 percent reimbursement of their coinsurance for certain related dental procedures. There's no additional charge for the program – if they qualify, they get reimbursed.
